

EU REACH SVHC DECLARATION

Dear Valued Customers,

REACH is a European Union Commission (EUC) Regulation on chemicals and their safe use. The REACH regulations became effective on June 1, 2007 and will be phased in until 2018.

As of January 15, 2019, there were 197 substances on the SVHC list and 43 substances on the Authorization List. Kaiser Tool Company, Inc. (THINBIT®) is committed to assisting its customers in their efforts to comply with REACH.

This certificate confirms that THINBIT® tooling does not require warning labels for REACH 197 SVHC.

Our tooling systems are intended to be used in mills and lathes to cut a variety of materials. For maximum safety:

- Research the exposure risk for all materials that you intend to cut.
- Use proper safety guarding and machining techniques.
- Wash hands, work in well-ventilated areas and wear appropriate safety equipment.
- Please do not eat any of our tooling.
- Do not use the tooling in a manner inconsistent with its intended purpose.

Regards,

Ken King
Chief Operating Officer
