THINBIT[®]

FORM-A-GROOVE[™]

FORM-A-GROOVE[™] tools can consist of combinations of simple grooves or more complex combinations of grooves, arcs, angles, convex and concave radii, as well as special thread forms.

FORM-A-GROOVE[™] tools can simplify programming, increase production and free tool locations for other tools.

External and Face applications

- Up to 2" wide
- Made from stacking individual inserts or from a solid block of carbide

Internal applications

- Up to 1" wide
- Starting at .125" minimum bore

QUOTATION TO ORDER PROCESS

- Submit an application print detailing your requirements. Include company name, contact name, email, telephone and fax numbers. Submissions can be faxed or emailed to: quotes@thinbit.com.
- A quote will be returned within 48 hours which will include CAD drawings, price, delivery and payment terms.

- Review the quote information and CAD drawings. Fill in the 'Quote Summary Sheet' with item quantities and approval signatures.
- Fax or Email the 'Quote Summary Sheet' to our sales office.
- The order will be confirmed via fax or email. The confirmation will summarize order and include delivery date.

If you require a modification other than those detailed on this page, please call or submit your application print to our sales office.
