### CHOOSE A CARBIDE GRADE

ORDER  
CODE

D	
---	--

#### DURA-MAX® 2000

Performs well with interrupted cuts.  
This grade is recommended for  
cutting steel, cast iron  
and stainless steel.

Order Code: "D2"

#### DURA-MAX® 5000

This grade works best with  
uninterrupted cuts. This grade is  
recommended for cutting abrasive  
materials, non-ferrous alloys,  
aluminum and plastic. Provides  
excellent edge and corner retention.

Order Code: "D5"
