

CALIFORNIA PROPOSITION 65 DECLARATION

California's Safe Drinking Water & Toxic Enforcement Act of 1986 lists over 850 chemicals that require warnings for California consumers. This Act, commonly known as Proposition 65 (Prop 65), establishes chemicals which the state of California's risk assessment process has determined present a risk of cancer, birth defects or other reproductive harm. The Proposition 65 information can be found at: <https://www.p65warnings.ca.gov/>

This certificate confirms that THINBIT® tooling does not require warning labels for Prop 65.

Our tooling systems are intended to be used in mills and lathes to cut a variety of materials. For maximum safety:

- Research the exposure risk for all materials that you intend to cut.
- Use proper safety guarding and machining techniques.
- Wash hands, work in well-ventilated areas and wear appropriate safety equipment.
- Please do not eat any of our tooling.
- Do not use the tooling in a manner inconsistent with its intended purpose.
